

CLEAR helped the LA Mayor's Office Guide Investments

The LA Mayor's Office needed **access to validated evidence** to better inform investments in job-seeker supports.

DOL's Clearinghouse for Labor Evaluation and Research (CLEAR) provided the LA Mayor's Office's with a centralized, easy to use resource for validated labor-related studies and way to identify effective job seeker supports.

- CLEAR helped LA to make system improvements:
- Build service provider **knowledge and capacity** to make evidence-informed program decisions.
 - **Validate funding** and **seed ideas** on innovations for investments.

“CLEAR provided me with powerful insights to make recommendations to our local elected officials.

CLEAR resources are up-to-date, evidence-based, and being put into practice all across the country, so I know I am leveraging proven research to inform policy development and fund programming that is trusted and impactful.”
